FIDELIS CLASS OF MEMORIAL METHODIST HAD PLATE DINNER

The Fidelis Class of the Memorial Methodist Church of Appomattox enjoyed a six o'clock plate dinner in the summer house of Mr. and Mrs. Grover Smith on Saturday evening, August tenth. The dinner was topped off by huge servings of freezer-made peach ice cream and home-made cake and cookies.

A good number of the members of this class are ladies who have stood the test of the years courageously and have been and still are inspiring examples for all with whom they come in contact.

Miss Luly Irby, one member, has been the treasurer of the S. School since it was first organized. Mrs. Sara Caldwell, another regular member, was the first bride to be married in the church. Someone recently said to me, "Every one loves 'Miss Sara.'" The class, has the widows of two Methodist ministers, Mrs. Lottie Bledsoe and Mrs. Mollie Trent.

It is a wonderful class and they boast of a good attendance record. Their teacher, Laura Henry, tries to instill in each the thought that although for several of the class, the snows of many winters have fallen and they have felt the heat of many summers yet, there is still work to be done. Each person has a place to fill and our youth of today need the encouragement and help of those who so deem respect. Others of the class are still dealing with the problems of the youth of their own families and there is always much discussion as to advisable steps to be taken and how each can live to be examples for all around us.

Those attending the dinner were: Mrs. Sara Caldwell, Mrs. Sears, Mrs. Davidson, Mrs. West, Mrs. Louise Blackard, Mrs. Helen Gunter, Mrs. Kenneth Barlow, Mrs. Lottie Bledsoe, Mrs. LeRoy Smith, Mrs. Trent, Mrs. Kauffman, Mrs. T. W. Evans, Mrs. Gwenlyn Doss and Mrs. Walter Henry. Guests included the Rev. and Mrs. Bergdoll, son George; Mr. Walter Henry, Mr. and Mrs. Grover Smith, July Smith, and Mr. Ralph Barlow.

Seventh-day Adventist Church

Government

Government can be bigger than any of the players on the field as a referee, but it has no right to become one of the players. -Forbes.

Middle Age

Middle age: when you go all out and end up all in. -Quote.

OF INTEREST TO VETERANS

A new type of Social Security payments to totally disabled persons aed 50 to 64 has begun. Last year the President signed a bill which provided that persons covered by Social Security who become permanently and totally disabled between the ages of 50 and 65 shall be eligible for Social Security payments, but such persons shall have their Social Security payments reduced by the amount of any other Federal or state disability benefits. Consequently any veteran drawing compensation or pension and also eligible for Social Security disability payments was deprived of benefits payable to non-veterans.

A new bill now provides that service connected compensation being paid by the Veterans Administration to disabled veterans shall not be deducted from any total and permanent disability Social Security benefits to which a veteran may be found entitled. However, pensions paid to disabled veterans for disabilities unrelated to service still must be deducted from Social Security payments to which veterans may be found eligible before reaching the age of 65. Any worker, whether veteran or non-veteran, must be disabled for at least six months before applying for Social Security benefits, and there must be convincing evidence that the disability is so permanent that the worker will not recover enough to return to work. There must have been Social Security credits of five years of work in the ten years before the person became disabled and credits for 1 1-2 years of work in the three years immediately prior to becoming permanently disabled.

TO DEDICATE STATION

The Virginia Electric and Power Company will dedicate its new Yorktown Power Station at formal ceremonies on Tuesday, September 10, Erwin H. Will, president, has announced. The dedication, which will feature luncheon and guided tours of the station, is expected to draw large numbers of people from the Peninsula area.

The dedication will mark the official opening of the newest power station of the Vepco system. The first unit, rated at 150,000 kilowatts, began production of electricity in mid-July. A second unit, scheduled for completion late in 1958, will double the station's capability.

The Station, built on a 120-acre tract of land below Yorktown, will cost $48,000,000 when completed. The first unit, costing more than $25,000,000, was begun in 1955.

Homemakers Items

Warm summer days and watermelon seem to go together — but melons are highly perishable, so treat them with care. Dropping, rolling or squeezing the melon can injure the flesh, and cause waste.

Melons have the best flavor and texture when you chill them slowly in the refrigerator. This means you must be extremely careful if you place a melon in the freezer to chill. It's easy to chill the melon too fast or too long. Either may cause the flesh of the melon to get soft and mushy.

For easy eating, try slicing the watermelon in rounds and then slice as you would a pie. These little wedges are easy to pick up and eat, with the rind serving as a handle.

Melon balls are a favorite in the summer. You can use a melon baller, but a measuring spoon will do the job just as well. [illegible] melon balls are an [illegible] delicious addition to [illegible] cottage cheese salad. [illegible] balls, any way you [illegible] with otherf resh fruits [illegible] ter them over the top.
